

# Advanced Equipment Sales (AES) Celebrates Feature in BCN Board Converting News

NOT FOR IMMEDIATE RELEASE  
SOUDERTON, PA – September 30, 2024

**Advanced Equipment Sales** (AES), a leader in scrap collection, baling, and dust control systems, is thrilled to announce its multi-page feature in the September 9, 2024 issue of BCN Board Converting News. This prestigious industry publication is renowned for delivering the latest news and insights to professionals in the corrugated and folding carton manufacturing sectors.

The feature highlights AES's 35-year journey of innovation and industry leadership. The article delves into AES's commitment to developing cutting-edge solutions that enhance operational efficiency and safety across various industries. Notably, the spotlight is on the AirShark product line, which has transformed how modern manufacturing facilities handle scrap and dust control, ensuring cleaner and safer work environments.

BCN Board Converting News has been a trusted voice in the industry for over 40 years, offering valuable insights to a diverse readership that includes plant managers, engineers, and executives. Being featured in such a respected publication is a significant milestone for AES, underscoring its ongoing impact on the industry and its dedication to excellence.

***"We are honored to be recognized by BCN Board Converting News," said Jeff Dietterich, President at AES. "This feature not only celebrates our 35 years of growth but also highlights our relentless pursuit of innovation. We're committed to delivering advanced solutions that meet the evolving needs of our clients."***
